INDEX-TRIBUNE.
Under the above caption the Santa Rosa "Democrat" of the 9th instant objects to an article which appeared in these columns last week relating to the Santa Rosa and Benicia Railroad project, and places a wrong construction on the same. It is not the desire of the INDEX-TRIBUNE, as stated by our esteemed contemporary, to put a damper on this or any other railroad enterprise having for its object the construction of a road that will give the people of Sonoma county connection with the transcontinental railroad system of the country. If the incorporators of the Santa Rosa and Benicia road intend building the road (and we have not said they did not intend so to do) the columns of this paper are wide open to give aid and encouragement to the enterprise, in so far as our humble ability will permit.

It is the INDEX-TRIBUNE's mission to look after and strive to protect the interests of the people. With this end in view, and knowing that the farmers and business men of this valley had only a few years ago been chained by a railroad scheme having a similar purpose in view—an Eastern output for Sonoma Valley products—we sought to make enquiry through its columns as to just what the new incorporation intended doing. Following old Davy Crockett's advice, this paper makes sure it is right before it goes ahead, and that is why it has not urged the people to rush into a venture without a written guarantee of good faith from the "party of the first part to the party of the second part."

In these times of the mad rush for wealth newspapers are too often made the instruments of designing and avaricious men, and innocently, too, to help carry out their schemes of aggrandizement. We take it that it is the mission of a newspaper to guard and protect the interests of the masses, and if it does not do this it is untrue to its trust and should be spurned from the threshold of every honest man's home.

It is not true, as intimated by the "Democrat," that this paper wished to create the impression that the railroad project under discussion was a fraud. We simply did what we conceived to be our duty to the people of the Sonoma and Los Guitos valleys by advising them in a manner as delicate as possible, so as not to give offense to those who were pushing the matter, to be sure and get a guarantee that the road would be pushed through to completion at a given date.

The President of the Santa Rosa and Benicia railroad, Mr. John Walker, is an honorable man. They are all honorable men connected with this new railroad project, and will do all they agree to do. But let us see just what the agreement calls for. The following instrument was recorded in Santa Rosa, last Monday, by the new railroad company, and is published and boastfully referred to by the "Democrat" as proof of the road being built at an early day:

WHEREAS, The Santa Rosa and Benicia Central Railroad Company has obtained the right of way from a number of the owners of land on the line of the survey of the road from Santa Rosa through the Los Guitos and Sonoma valleys to Benicia in the State of California, and it is the purpose of the company to obtain the right of way for said road from all of the owners of land on the line of said road; and, whereas, it is the purpose and intention of said company to commence work and prosecute the construction and building of said road with all possible speed, and as a guarantee of good faith and intention of said company in the premises, this indenture, made and entered into by and between said company and the owners of land on the line of said road, witnesseth: That the said company, in consideration of the right of way and the aid and assistance given by the people along the line of said road, agrees, obligates and binds itself to cancel annual, perpetual and forever abandon the right of way for said company and the road, whereof, if said company shall not in good faith commence the work of constructing and building said road on or before the 8th day of May, A. D. 1887.

Witness our hands and seals hereto this November 8th A. D. 1886.
(SEAL) JOHN WALKER, President.
(SEAL) BY H. G. HANMAN, Secretary.

It will be seen from the above that the company obligates itself to commence the construction of the proposed road, but there is nothing in the instrument binding its projectors to complete it. They agree to commence operations on or before the 8th day of May, 1887.

Why do they not covenant to complete the work in one, two or three years? As the agreement now reads they can build a few hundred yards of road, and wait till the blast of Gabriel's horn is heard before completing the balance, so far as the document under discussion and our courts are concerned. Mr. "Democrat," we rest.

Under the above caption the Santa Rosa "Democrat" of the 9th instant objects to an article which appeared in these columns last week relating to the Santa Rosa and Benicia Railroad project, and places a wrong construction on the same. It is not the desire of the INDEX-TRIBUNE, as stated by our esteemed contemporary, to put a damper on this or any other railroad enterprise having for its object the construction of a road that will give the people of Sonoma county connection with the transcontinental railroad system of the country. A Remarkable Shot.
(Santa Rosa Democrat.)
A gentleman residing near the Napa and Sonoma county lines, and whose name we withhold by request, tells the following story of a remarkable shot: He was out in the mountains in quest of game, Monday, and had experienced poor luck until about noon, when he spied a tall, magnificent deer, the first he had seen, raising its proud head over a rock pile, at a distance of about 200 yards from him. The branches of a young madrone tree formed a natural canopy of bronze and green above the animal's head. He hesitated for some time in doubt about changing a shot at that distance, the position of his target being so unfavorable. He decided to risk it, however, and blazed away. When the little wreath of smoke had cleared away he found that the proudly-crested head had disappeared. He made his way as rapidly as possible to the spot and found his game awaiting him. After performing the customary surgical operation upon the deer's throat with his hunting knife he commenced to look for his death wound. What appeared to be a bullet hole was found in the center of the deer's forehead. In passing his hand carefully over the wound he detected a rough, sharp protuberance. Thinking it was a piece of shattered frontal bone he tried to withdraw it. He was unable to move it at the first attempt, and commenced tugging in earnest. He finally succeeded, but, to his surprise, it was not a piece of skull. It was a splinter of madrone wood, four inches in length by an inch and a half or quarter of an inch thick, gradually narrowing to a point at one end. Upon careful examination he found that his bullet had not touched the animal, but had struck one of the limbs of the madrone tree about six inches above his head, chipping out the splinter that had killed the deer. The splinter, withdrawn from the animal's skull, was fitted to the limb above, and the result proved beyond doubt that the deer was killed by the splinter of wood.

A Good Word for the Country Press.
The "Alta" of the 10th instant, in an able editorial on the campaign just passed, pays the following compliment to the country press: "Let us, in conclusion, put the responsibility of success in the late election where it rightfully belongs. After the line of battle was chosen by the party Convention the burden was nobly borne by the country press. In the quiet country men think. They are little subject to prejudice or passion, and they are not poisoned by a selfish ambition. The press which they support partakes of their spirit, and that press won the victory. It was not gained by chairman nor committee nor councils nor money. Danger lurked in the confusion of the city and safely picketed the country with the local press. We ask for that press the party's grateful consideration. It is devoted to the unity and good-fellowship of the organization, and leaders will always do well to take counsel of its instructive common sense."

"Some Pumpkins."
J. F. Boyce has on exhibition in the "Republican" show window an immense pumpkin, weighing 1263 pounds, which was raised on his place on Pleasant Hill Ridge. A number of guesses have already been made as to how many pies the pumpkin would make. We will wait to hear from some one who can beat this monster.—Santa Rosa Republican.

The Verdict Unanimous.
W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at Wegner's Drug Store.

Excitement in Texas.
Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free at E. Wegner's Drug Store, 2

The funeral of the late J. T. Noon took place in Santa Rosa, Sunday, and was attended by his father and sister from San Francisco, and a large concourse of friends.

Mr. Ed. P. Wells, thesis P. O., Stevens county, W. T., was entirely cured of rheumatism by St. Jacobs Oil. He says: "I consider it a wonderful remedy and will always speak a good word for it."

Mrs. Martin and Ed. Colgan, candidates on the Republican ticket for School Superintendent and Sheriff, respectively, were the only nominees on their ticket who received a majority at Cloverdale at the recent election.

Archibald Edmond Legendre, 419 Broadway, San Francisco, states that he has suffered for a long time with a severe cough, and failing to obtain any relief from doctors and the numerous preparations he took, he became alarmed. Tried Red Star Cough Cure, and one bottle entirely cured him.

In canvassing the votes of Glen Ellen and Sonoma precincts the Supervisors discovered that instead of a tie between Messrs. Akers and Small for the office of Justice of the Peace of this township, the latter had five more votes than the former. A "Small" majority, as it were, eh, Judge?

Clay Literary Society will hold its sixth literary entertainment and social hop at Union Hall on Thanksgiving night. An exceptionally fine program will be presented and good music will be furnished for the hop. The affair promises to be one of the best ever gotten up by the society. Additional particulars will be given from time to time.

The Agua Caliente Springs Hotel, having been enlarged and refurbished is now one of the most elegant and attractive summer and winter resorts on the coast. Visitors will find the house supplied with every modern convenience, and no pains will be spared to make their stay pleasant and comfortable. Prices to correspond with the dull times.

Mrs. Fannie McG. Martin, according to the official count, received a plurality of 413 for the office of Superintendent of Schools of Sonoma county. The lady highly appreciates the compliment, and we can assure the voters of old Sonoma that they will never regret their choice, and congratulate them on having secured her services for so important a position.

A splendid programme will be presented by Clay Literary Society on the occasion of its entertainment and social hop at Union Hall, Thanksgiving night. One of the attractions will be a genuine "Plantation Scene," in which will be introduced darkies, who will entertain the audience with songs and dances. Let every one attend.

Judge Breitenbach, Jas. McDonnell Jr., Assemblyman-elect, and Henry Raschen, appointed by Judge Pressley to appraise the estate of the late Jacob Ahrens, met on Tuesday and placed a valuation on the same of \$3,939.95, divided as follows: Interest in Pioneer Saloon fixtures, stock, standing accounts and cash taken in, \$474.92; cash in bank and solvent notes, \$1,465.89; life insurance policy in Order of Chosen Friends, \$2,000. The latter was made out in favor of deceased's father, who is residing in Baden, Germany.

One Year's Leave of Absence.

Rev. Father Esser announced to his congregation from the altar of St. Francis Church, last Sunday, that he had been granted one year's leave of absence by the Archbishop of this diocese, and would probably start East next week. Father Esser during his absence will visit his parents in Michigan, after which he will extend his travels to the Old World. During a six-years' charge of this parish the reverend father has accomplished wonders. Upon his arrival here he found an old tumble-down adobe structure, a relic of the Mission fathers, being used as a house of worship, the congregation scattered and lacking a residence for the parish priest. With indomitable energy he set about the task of changing the order of things and the result is a congregation increased three-fold and a valuable unencumbered church property consisting of one of the finest churches, with its lofty spire towering heavenwards, in the interior of the State, a handsome convent building and a neat private residence. Father Esser is not only greatly beloved by his entire congregation, but is highly esteemed by all classes in Sonoma Valley for his enterprising spirit and estimable qualities. The father in his travels will carry with him the best wishes of our people and the hope that he will enjoy a most successful tour from his labors, and it is hardly necessary to add that his return will be hailed with joy by a community for which he has labored so hard and accomplished so much.

Congregational Church Fair.

The ladies of the Congregational Church held a most successful Fair at Union Hall, last Tuesday and Wednesday evenings. There was presented the first night the comic opera of "The Maid and a Game Pie," well arranged by Mrs. Appleton, assisted by Mrs. Mumfrey and Miss N. Hope. These ladies deserve much praise for the excellent manner in which the piece was put upon the stage and carried out. The following cast of characters were well sustained:

King.....Alf. McLaughlin
Queen.....Johanna Tobia
Maid of Honor.....Gerie Appleton
Doctor.....Bertha Campbell
Kilroy.....Frank Campbell
Peckers.....Frank Campbell
Cooks and Courtiers.....May McDonnell
.....Ellen Appleton
.....Robert Shaw
Chief Cook.....W. H. Appleton
Jack (a doggy).....Gladys Johnson

The children acquitted themselves in a creditable manner and their respective parts were received by the large audience in a manner which showed how thoroughly they were appreciated.

On the second night the following programme was rendered: Piano solo, Mrs. A. Brown; "Song of Seven," arranged by Mrs. Mumfrey. This was one of the principal features of the entertainment and included many pretty and affecting scenes; French horn solos, Miss Maud Noble of Oakland. The fancy table presided over by Mrs. Craig displayed many handsome and useful articles. This, together with the various refreshment booths, were well patronized. The ladies of the Congregational Church are deserving of praise for the successful manner in which everything passed off.

PERSONAL AND SOCIAL.

Coroner King was in town Tuesday.

Mark L. McDonald of Santa Rosa was in town last Tuesday.

J. K. Luttrell and J. F. Orr paid Sonoma a flying visit Tuesday.

Mr. Fred. Ewell went to Vacaville last Tuesday to reside on his farm near that place.

Miss Eloisa Pauli went to San Francisco last Thursday morning, where she will reside in the future.

J. B. Small, Justice of the Peace, and family have moved from Glen Ellen and taken up their residence here.

Mr. Ed. Tripp, an attaché of this office for almost a year and who returned to his home in South Haven, Michigan, last August, is now employed on the "Messenger," the leading paper in that town. Mr. Tripp, by his polished manners and courteous demeanor, made many friends during his brief stay among us who will be pleased to learn that he intends returning next Spring.

The Parent of Insomnia's.

The parent of insomnia or wakefulness is in nine cases out of ten a dyspeptic stomach. Good digestion gives sound sleep, indigestion gives sleep with a start. The brain and stomach sympathize. One of the prominent symptoms of a weak state of the stomach is a disturbance of the great nerve center, the brain, and in consequence the stomach, and you restore equilibrium to the great center. A most reliable medicine for the purpose is Hostetter's Stomach Bitters, which is far preferable to mineral sedatives and powerful narcotics, which, though they may for a time exert a soporific influence upon the brain, soon cease to act, and invariably injure the one of the stomach. The Bitters, on the contrary, restore activity to the operations of that important organ, and their beneficial influence is reflected in sound sleep and a tranquil state of the nervous system. A wholesome appetite is likewise given to the action of the liver and bowels by its use.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became a Girl, she clung to Castoria,
When she had Children, she gave them Castoria.

Electricity Used in a Coal Mine.

Electricity has been employed to cut coal in some of the mines in Illinois. The cutting is described as done by a chisel at the end of a steel bar, fastened to a piston of soft iron in the cylinder of a steam engine. The piston is connected by a rod of insulating wire, and the desired reciprocating motion is given to the rod by reversing the current in the coils.—Frank Leslie's.

Tree-Planting to Temper the Heat.

A medical lecturer in New York suggested that the great remedy for the ravages of excess of heat in cities is the planting of trees. He proposed that shade trees should be planted one to every twenty-five feet in all the streets and avenues below Central park.

The Tendency Toward Simplicity.

Some English political economists are said to be getting frightened at the growing tendency toward simplicity in the dress of women. They say that if women should dress all alike, commerce would be ruined.—Exchange.

A Common Cold

Is often the beginning of serious affections of the Throat, Bronchial Tubes, and Lungs. Therefore, the importance of early and effective treatment cannot be overestimated. Ayer's Cherry Pectoral may always be relied upon for the speedy cure of a Cold or Cough.

Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pain in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was

Speedily Cured.

I am satisfied that this remedy saved my life.—Jno. Webster, Pawtucket, R. I.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstinate symptoms. My physician ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure.—H. E. Stimpson, Rogers Prairie, Tex.

Two years ago I suffered from a severe Cold, which settled on my Lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Ayer's Cherry Pectoral. After taking two bottles of this medicine I was cured. Since then I have given the Pectoral to my children, and consider it

The Best Remedy

for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.—Robert Vanderpool, Meadville, Pa.

Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my Lungs. I had a hacking cough, and was very weak. Those who know me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York.

Ayer's Cherry Pectoral is considered, here, the one great remedy for all diseases of the throat and lungs, and is more in demand than any other medicine of its class.—J. F. Roberts, Magnolia, Ark. 11
